GEORGE P. EUSTIS FOR M'KINLEY.

Mr. Eustis's letter is as follows:

Holland House, New-York, September 22, 1886. Chairman of Frederick County Republican Committee.

Dear Sir, I am one, like many others, who feel compelled by the gravity of the present political issues to enter politics for the first time. On account of my faith in the stability of our form of government I have been heretofore indifferent to the association of the product of the political party, and my interest has only been aroused by the attempt of one of them to upset the structure of our social and political institutions. I can see no plank in the so-called Democratic platform which could possibly be of any benefit to the country, and the extraordinary propositions suggested as reform would seem to have been inspired by or drawn from the socialistic writers of Europe. These vicious prophets have always been considered in the Old World a menace to social order, and their predictions about the cruel fate and degradation of the laboring man because of modern progress have been disproved by the march of events. If this is true abroad it is true at home, and every one with a sense of responsibility must realize that it is dangerous to encourage or support ideas which tend to creat discontent and the desire for violent changes in our Constitution.

This manly and straightforward declaration of principles by a young man of Mr. Eustis's position is a political event of considerable importance. While he has not heretofore allied himself with either of the political parties, the political faith of his ancestors has always been Democratic. He is a grandson of the late W. W. Corcoran, the great Washington philanthropist. He is a nephew of the present Ambassador to France, and is allied by thes of blood to some of the most distinguished families of the South. In entering politics his most natural alliance would be, therefore, with the Democratic party. Having taken the step which he has, he is thoroughly enthused, and being fully versed in the subject at issue and possessing force as a speaker, he will make himself felt in the State in which he has his home.

The first speaker at the noonday meeting of the 'ommercial Travellers' Sound Money League, a Broadway and Prince-st., yesterday was Mrs. Sarah Neville, who formerly took leading parts in such Shakespearian plays as "Othello," "Twelfth Night" and "Macbeth." She has been the first woman to take the stump for McKinley and Hobart in this city. The commercial travellers gave her a hearty welcome and applauded her speech. In justification of her presence as a speaker she said to the audience:

said to the audience:

Less than a century ago the presence of a woman at a political meeting, except on the side of the platform which you occupy, would have been followed by bitter hostile criticism for the wretch that had so unsexed herself as to take part in political affairs. Yet what have not women done for the preservation of the Union? Need I name that illustrious woman Harriet Beecher Stowe or the noble woman who wrote "The Battle Hymn of the Republic," and bade the world remember that God is marching on? If by any possibility the workingmen of this country should ordain that the American dollar be cut down in purchasing power from 100 cents to 53 cents, that crime would be expated suddenly and painfully by the men and women who live by the sweat of their brow. Under the primal curse of Adam, do we not earn our bread bitterly enough? Bryan says we get too much for our dollars because they are gold ones, or the equivalent of gold. He would have you paid in dollars that will only buy half of what the dollars to-day will purchase, in order that some poor Senator may sell his stock of silver. He practically tells you to pay double for your bread, because by so doing you will enrich the men who vote for him. He tells you that although everything costs you twice as much as at rich the men who vois for him. He tells you that, although everything costs you twice as much as at present, you will still be ahead of the game by getting more wages. How much more? Twice as much? No, they have not the impudence or recklessness to claim that. They know that history would confront them with a ringing contradiction. W. H. Spendles, of Brooklyn, also addressed the

world. After denouncing Senator Tillman for threatening the Supreme Court, he urged constant activity against the enemies of good government. William A. Prengergast also spoke, representing McKinley's principles as the embodiment of the highest ideals and hopes of the American people.

POLITICAL NOTES.

The political cauldron is seething in Allegany County. There is usually more politics to the square acre there than in any other rural district, but this year surpasses all previous records. It is largely due to the candidacy for Assemblyman of Mr. Robbins, the independent Republican who was "turned down" by the machine. The reputable elements of the party resented this, and, at the request of 3,000 voters, Robbins decided to make a nght for Assembly against the machine, which, alarmed at Robbins's vigorous canvass, turned for help to the Democrats. Cowles, a Democratte boss, attempted to respond, but was promptly 'turned down," and thus the coalition of the two machines was prevented. The strongest papers of machines was prevented. The strongest papers of the county, including "The Cuna Post," "The Friendship Register. "The Andover News" and "The Angelica Ropublican" are supporting Robbins faithfully, and a new paper has been started at Belmont by the business men of that place in the interest of the anti-machine campaign. Altogether, it looks to others, besides "The Saisamanca Republican," as though the party in Allegany County was about to beat the machine. When this is done they will, in the words of "The Republican," "exercise the political rights and privileges which their neighbors have enjoyed for some years." It is past comprehension," adds "The Republican," how they should permit the machine to rule them through vicious caucus methods and the secret ballot in nominating conventions. The Republicans of Cattaraugus County disearded these years. through vicious caucus methods and the secret ballot in nominating conventions. The Repub-licans of Cattaraugus County discarded these years ago, and there is now no opportunity for political hosses to hunco the people by any such game as was played in Allegany County this year."

Much anxiety has been manifested at Republican headquarters over the silver sentiment in the Chautauqua district. This, according to the most trustworthy reports from that section, is quite unnecessary. The fact is, says "The Jamestown Journal," "that Chautauqua stands as rock-bound in her Republicanism as ever. There is no faitering along the lines opposed to the revolutionary doctrines of the Chicago platform. Make no mistake, Chautauqua will roll up an old-fashioned Republican majority on November 3."

The campaign orators East and West agree in saying that one of the best speeches of the campaign was that made by Mr. Botkin, member of Republican National Committee for Montana at the reception tendered Congressman Hartman by the citizens of Helema. Mr. Botkin is for Me-Kinley, and all the pressure that has been brought to bear upon him by the silver interest in the State as not caused him to swerve a hair's breadth from a loyal support of the Republican candidates. His closing words on this occasion will probably find their way into thousands of political scrap-books. I belong," said he, "to the Republican party because its history is the history of the growth and greatness of this country; because it is the friend of labor without being the foe of thrift, and beuse its policies and purposes are always grandiy saved the Union, because it reduced wrangling commonwealths into a composite nationality; because it crushed the heresy of State rights and made it a proud boast to say 'I am an American citizen.' I belong to the Republican party because it gave land to the landless, homes to the homeless; because it added star after star to the flag, and because it has made possible the great Northwest of which we are a part. I belong to the Republican party because under its action slavery, no longer dishonors labor; because it has built the free school and guarded it against sectaman influence, because it has kept the fire of prosperity alight on the hearth of every workingman within the boundaries of the Republican and because it is the assured agency of an intense Americanism. I belong to the Republican party because it is conscience illuminated by reason and glorified by patriotism. That party must come wooing with assurance of grander things than these that wins me to a new commonwealths into a composite nationality; beat party must come wooing with assurance of ander things than these that wins me to a new eglance."

But such are the changes that fortune's wheel brings in practical politics. revolution illustrated with greater force and frequency. Three years ago Hill was undisputed master of the victorious Democratic party in this State. He was pointed to as the greatest politician that the State had produced. He had led his party on from victory to victory, while his rival on the Republican side, Thomas C. Platt, could only point to long series of disastrous defeats. The contrast was striking. Platt felt it keenly and seriously considered the question of retiring absolutely from polities, but while he was actually discussing the proposition with his friends, the tide changed in his favor, and since then he has been sailing on a comparatively smooth sea of favorable conditions as regards State elections, while Hill has been, as Kipling would say, "dropping down the ladder rung by rung." He is pretty far down at present. Some one asked Ernest Harvier what he thought of the Senator's political status. "Did you ever see Beau Brummel," he asked. "You temember that in the last act he appears in the garret a perfect wreck of his former self, a helpiess creature living in the past. Mr. Black's remarks on the silver question at the Chatham Fair have been the subject of much fa-vorable comment by those who heard and read them. They were forcible and pointed. Here is one of his best para, "iphs: "There is not a dolone of his best para, "sphs: "There is not a dollar's worth of bullion in this State. There is not a dollar in any State, barring five or six. These five or six have a total population of less than the city of New-York. These small States representing these small interests ask you, and Pennsylvania, and Ohio, and Illinois, and Massachusetts, and Maine, and all the other great Commonwealths of this country to take the bullion of that little number of States and make it worth 169 cents for the 30. That is what free coinage means."

John M. Palmer, the Sound Money Democratic candidate for President, is the "youngest man who ever endured eighty years of active life." That is complimentary, but not fair: Mr. Palmer is only "It matters not." says "The Binghamton Herald."

D. G. GRIFFIN WILL ACCEPT.

HE ADHERES TO THE PRINCIPLES OF THE IN-DIANAPOLIS AND BROOKLYN PLATFORMS. Watertown, N. Y. Sopt. 25 .- D. G. Griffin ar-

learned of his nomination for Governor while

breakfasting at Richland. To a reporter of the United Associated Presses he said: "You may say for me that I consider the nomination a high honor; that I shall accept it, and with equal sincerity I say, also, that my preference was that the nomination should have been given to some one else. When a man has become the candidate of his party for an important office there are plenty of opportunities for him to express his views after mature consideration, and deliberation is at least due the party by which he has been nominated. However, I think there is little chance of misap-prehension of my views or current public events and I need hardly say that I adhere to the

principles of the Indianapolis and Brooklyn plat-forms." STEADY DRIFT TO M'KINLEY.

REPUBLICAN LEADERS REJOICE OVER REPORTS

THAT COME FROM THE WEST. Chicago, Sept. 25.-While the campaign leaders at Republican National headquarters do not want the impression to get among the party workers that the political fight is practically won, for fear of a relaxation of effort, there is a settled conviction in the minds of such old campaigners as Payne, Durbin, Cummins and Hahn that if the people went to the polis to-day Mr. Bryan would be beaten by an immense majority. These leaders talked to a limited Associated Presses in a greement and the common without the Siscussion, William Steinway, each time seage to Prince Bismatck on Wednesday, stating that the letter was being used demagoglically as a campaign document by the free-silverties and asking for the exact language used by the Prince in the letter. Hahn, of the speakers' department, said I have just received a list of 120 former Demoerais in a Michigan town of 15,000 with the state ment that they will vote for McKinley astonished to find the names of many influential tilzens on the list. If this ratio is kept up in ther cities it indicates a Republican plurality of 50,000 in Michigan for McKinley. There has been a big change of sentiment among the Western voters within the last two weeks, more so in the ast week, and I am now firmly convinced that the result in November in what are now considered doubtful States will surprise our most sanguine party leaders."

POPULIST MANIFESTO ISSUED IN INDIANA Indianapolis, Sept. 25.—The Executive Committee of the Populist Fusion Committee of Thirteen met in Chairman Rosenheimer's rooms vesterday

formulated a pronunciamento, which was issued last night. It reads as follows: last night. It reads as follows:

The Executive Committee of Thirteen, after a consultation with M. C. Rankin, of the National Committee, who met Mr. Watson, our candidate, at St. Louis on the 24th, reports to our committee that it is the desire of Mr. Watson that Indiana get into line at once and divide electors on fair terms. We also have instructions from our National Committee to the same effect, and we have decided to put out ten Democratic and five Populist electors and to certify the same as our electoral ticket. The several committees will meet on next Tuesday to arrange full details.

CAST FOR THE POPULIST TICKET WHILE RUN-

NING AS A DEMOCRAT FOR CONGRESS scheme in Western States, the following letter rerelved yesterday by a local man from Secretary J.

writes:

A regularly nominated Presidential ticket for Grover Cleveland and Adlai E. Stevenson, nominated at a regular Democratic Convention; the State of Nebraska and voted for in the fall of 1892, was in the field. The name of the undersigned headed the State ticket for the Governorship. The vote you will find in any of the great newspaper almanaes for the year 1893. Mr. W. J. Bryan voted for the Populist electors in 1892 instead of the Democratic electors. Whether he voted for the Democratic electors. Whether he voted for the Democratic electors whether he voted for the Democratic electors. Over the property of the Populist electors in the voted for the Democratic endits for Governor on that occasion, who was known to be an ultra-gold-standard man, is a question which I am unable to answer, though I should swear to the best of my knowledge and belief, if placed under oath, that he voted for the Populist ticket throughout, notwithstanding he was running for Congress at the same time as a Democrat.

A TELEGRAM TO PRINCE BISMARCK.

There has been much discussion among German-Americans in this city as to the authenticity and weight of a letter said to have been written last month by Prince Bismarck to Governor Culberson, of Texas, containing this sentence: "Considered from a commercial and industrial standpoint, the United States are freer by far in their movements than any nation of Europe, and hence, should the people of the United States find it compatible with their interests to take independent action in the direction of bimetallism. I cannot help but believe

his refusal to return to Albany as a Tammany representative:

Highly as I would prize a re-election to the Assembly. I do not believe my acceptance of a homination to that office on a platform to the principles contained in which I am opposed would reflect very much credit on myself. I believe this is a time when no one should attempt to conceal his attitude on the great questions which are being presented to the people for their decision. This is not the time to waver or temporize. If the Populistic assault upon National credit and honor is to be crushed, it must be met in the most effective manner. To remain passive in a period like the present is impliedly to confess either a want of courage to face the issue or a lack of perception of the importance of it. I do not believe that the mere question of a change in our standard of value is involved. Behind the forces advocating the free and unlimited comage of silver at the ratio of 16 to 1 and the reorganization of the United States Supreme court, are arrayed repudiation, defant contempt of expediency rather than of principle, whose radicalism is a threat to the stability of our insulutions. In taking this stand for what I believe to be the maintenance of the honor, the integrity and the perpetuity of our Government, I am fully aware that my attitude will result in my exclusion from political preferiment, but above and beyond that feeling is the approval of my own conscience and my deep conviction that honest politics is the wisest patriotism."
